Subject: West Lake Landfill: EPA comments on Supplemental SFS workplans, and request for meeting to discuss these comments

All,

Attached are EPA HQ reviewer comments on the six Supplemental SFS workplans. EPA Region 7 has asked USGS to help review these workplans as well, and their comments will be provided to the Region in the next couple of weeks, whereupon I will forward them to you.

EPA would like to schedule a comment review meeting / conference call in approximately one month, to give everyone time to review the attached EPA comments (and the forthcoming USGS comments) and the MDNR comments dated May 9, 2013, and formulate any questions on them. We would like to hold this meeting in the Kansas City area, perhaps at the Lathrop & Gage offices as we have done in the past. It is critical that all commenters participate in this meeting to explain their comments as necessary.

Please advise your availability to participate in this meeting during the week of September 16th or September 23rd. If others from your organization need to participate, please poll them and let me know which date works best for you. I expect this meeting will take most of the day. Once I identify the date that works best for all I will send out a formal meeting invitation.

Sincerely,
Daniel R. Gravatt, PG
